CE WPLNXT 62013

Corporate office & manufacturing facility - Simi Valley, CA USA

Freedom Designs, Inc., a member of the Helixx Group, has designed and manufactured specialized wheelchair frames, custom seating and positioning systems, hardware, and accessories for over 30 years. Utilizing an in-house machine shop and highly specialized staff, Freedom Designs is able to offer functional, durable, and cost effective products – all manufactured in the U.S.A.

We are proud of our many past and on-going industry contributions. We are actively involved with seating/positioning and wheelchair code development for funding agencies. We have developed and promoted technical seminars for providers and therapists in need of continuing education, product knowledge and CEU credits for nearly 20 years.

We lead by example having brought to market the Spectrum, the first folding tilt-in-space wheelchair; the Tripod, the first mid-wheel drive manual wheelchair; the CGX, the first cable-free, rigid tilt-in-space wheelchair; and NOW the NXT, the lightest folding and lightest rigid tilt-in-space wheelchair! Our mobility bases are not just designed for the child riding in it, but also for the person moving it.

At Freedom, we set the bar high and have never been one to follow. Our Customer Service representatives are professional, knowledgeable and caring experts with many years of building relationships within the industry with untiring service. Our entire Freedom Team is focused on the future. We will continue to bring innovative, high quality products to a global market that starts with kids because at Freedom Designs, "Our kids are our passion".
