Freedom Designs, Inc. ®

Invacare® Matr^x®

“An Alliance of Seating Science” Press Release

July 20, 2016

Freedom Designs, Inc. of Simi Valley, California is recognized as the market leader in the development, manufacture, sales and distribution of customized seating systems and specialized mobility products worldwide. Since 1981 Freedom Designs has made available products that have helped to change the lives of people with disabilities. Freedom’s latest “NEW “ product introduction, the P.R.O. CG™ (Precise Rotational Orientation) tilt-in-space wheelchair, is yet another innovative breakthrough that’s designed to help make the activities of daily living just a bit easier.

Invacare Matr^x line of “Seating and Positioning” products, is an established global leader in wheelchair seating cushions and back support surfaces. As the world of seating evolves, Invacare Matr^x is committed to innovation with products like the *NEW* TR Back and the *NEW* Libra cushion. The Invacare Matr^x line exceeds customer expectations worldwide with high quality standards and superior product performance.

“An Alliance of Seating Science”

Freedom Designs and Invacare Matr^x have joined forces to streamline the process of delivering our highly innovative products together, directly to our Provider network. Now, with only one call to Freedom Designs, our Providers can request a quote or place an order for a Matr^x Cushion and/or a Matr^x Back to be installed on ANY Freedom wheelchair. Freedom technicians will install all seating installation hardware on the wheelchair frame and ship the seating system with the wheelchair in one package. To receive just one shipment of the world’s best seating products, it’s as simple as one call or one email to receive a quote or to place an order.

It’s “An Alliance of Seating Science”.

For more detailed information, contact your Freedom Designs sales representative, call Freedom Designs customer service or visit our website at www.freedomdesigns.com. You can also call Motion Concepts customer service or visit their website at www.motionconcepts.com.
